PROJECTS

Stock Exchange Web App | MERN Stack Project

- Built a MERN-based stock trading platform with secure authentication and authorization.
- Developed an interactive dashboard for viewing stock holdings, positions, and market-related data.
- Implemented stock buy and sell functionality with data dynamically fetched from a MongoDB-connected backend and deployed the backend using Render.
- Added stock comparison and graphical stock review features for improved user experience.
- Restricted dashboard access to authenticated users only, with both the frontend and dashboard deployed on Vercel.

Airbnb Clone | Full Stack Web Application

- Developed a full-stack Airbnb-inspired web application with authentication and authorization.
- Implemented REST APIs for listings, comments, and user management.
- Added features such as creating listings, posting comments, deleting comments, and restricting users to manage only their own content.
- Integrated MongoDB for database management and deployed the application using Render.

ACHIEVEMENTS

2nd Prize — GNA Hackathon 3.0

- Worked in a team of 3 to develop a Flutter-based educational application integrated with Augmented Reality (AR) using Unity.
- Designed gamified learning features including leaderboards, lesson tracking, and AR-based visualization.
- Enabled students to study concepts such as human anatomy and the solar system through interactive 3D models.

TECHNICAL SKILLS

- **Languages:** JavaScript, C++
- **Frontend:** HTML, CSS, React.js, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **Tools & Platforms:** Git, GitHub, Vercel, Render

EDUCATION

GNA University — Bachelor of Computer Applications (BCA)	2024 – 2027
• Current CGPA: 7.7	
Adarsh Senior Secondary School — Class 12th	2024
• Percentage: 79.8%	
St. Joseph's Convent School — Class 10th	2022
• Percentage: 80%
